Our Story

45 anni di innovazione e passione per l'eccellenza

Da 45 anni Pavoni Italia è sinonimo di qualità, innovazione e design al servizio dei professionisti. Ogni prodotto è progettato con l'obiettivo di rispondere alle esigenze di chi lavora con passione, precisione e creatività ed è il risultato di una continua ricerca e una stretta collaborazione con i migliori pasticceri, chef e maestri del settore a livello globale. Siamo orgogliosi di vantare una rete di collaborazioni con i professionisti più prestigiosi del mondo, che ogni giorno scelgono Pavoni Italia per le loro creazioni.

La nostra azienda è nata nel 1980 come produttrice di contenitori in plastica per la panificazione e da allora è cresciuta e si è evoluta, diventando un marchio riconosciuto a livello internazionale. Con oltre 7.000 prodotti Pavoni Italia offre una gamma completa di attrezzature professionali: dagli stampi in silicone, all'attrezzatura per il cioccolato, dalle soluzioni per la surgelazione a quelle per la cottura. Ciò che ci distingue è la continua dedizione al cliente, l'ascolto attivo delle sue esigenze e la nostra capacità di anticipare le tendenze del settore.

L'impegno nella ricerca e nello sviluppo è alla base del nostro successo e ci spinge a innovare costantemente, mantenendo la nostra missione: offrire strumenti che non solo soddisfano, ma ispirano la creatività dei nostri clienti. Ci ispiriamo ai nostri valori: un impegno reale verso il cliente, una dedizione che nasce dall'ascolto e da un rapporto di fiducia reciproca. Amiamo quello che facciamo e siamo orgogliosi di essere scelti dai migliori professionisti del mondo.

45 Years of innovation and passion for excellence

Since 45 years Pavoni Italia is synonymous with quality, innovation and design at the service of professionals. Each product is designed with the aim to meet the needs of those who work with passion, precision and creativity and it is the result of a continuous research and a close collaboration with the best pastry chefs, chefs and masters of the industry worldwide. We are proud to have a network of collaborations with the most prestigious professionals in the world, who every day choose Pavoni Italia for their creations.

Our company was founded in 1980 as a manufacturer of plastic bakery crates and has since grown and evolved into an internationally recognized brand. With over 7,000 products Pavoni Italia offers a complete range of professional equipment: from silicone moulds to chocolate equipment, from freezing to baking solutions. What distinguishes us is our continuous dedication to our customers, our active listening to their needs and our ability to anticipate industry trends.

Our commitment to research and development is at the heart of our success and drives us to constantly innovate, while maintaining our mission: to offer tools that not only satisfy, but inspire our customers' creativity. We are inspired by our values: a real commitment to the customer, a dedication that comes from listening and a relationship of mutual trust. Stampi per vaschette gelato *Moulds for gelato pans*

Top Ice è la linea di stampi in silicone per la decorazione delle vaschette gelato. Cinque trame diverse e due formati che impediranno sbalzi di temperatura e fastidiose patine ossidative sul vostro gelato.

Top Ice is the line of silicone moulds for decorating gelato pans. Five different textures and two sizes that will prevent temperature changes and annoying oxidative films on your gelato.

Top Ice

Top Ice è la linea di stampi in silicone per la decorazione delle vaschette gelato. Il modo nuovo di creare una vetrina capace di catturare lo sguardo e una soluzione ideale per la conservazione: Top Ice annulla l'effetto "defrost", evitando che gelato subisca sbalzi di temperatura e impedisce la formazione della fastidiosa e antiestetica patina sul gelato, dovuta all'ossidazione. Questo significa più libertà e meno lavoro. Cinque trame diverse, tutte da interpretare in modo personale, per dare a ogni gelato l'aspetto che si merita. /

Top Ice is the line of silicone moulds for decorating gelato pans. The new, simple and quick way to create a shop window able to catch the eye: Top Ice nullifies the "defrost" effect, your gelato will not be subjected to sudden changes in temperature, but kept stable. It helps avoiding the formation of that pesky, unaesthetic coat on the top of your gelato, due to oxidation. The final result: less work, more freedom. Five different textures, all to be interpreted and decorated in a personal way, to give each ice cream the look it deserves.

Serie N N Series

Fra impilabile e sovrapponibile c'è una differenza di 180°. Se sovrapposti in una direzione i contenitori serie N possono essere facilmente inseriti l'uno nell'altro, recuperando spazio. Con una rotazione di 180°, però, possono essere impilati per lasciare al loro interno il contenuto e migliorare così la gestione delle merci, i tempi di movimentazione e la logistica generale. Sono disponibili con pareti piene o forate.

There is a 180° difference between nesting and stacking. If positioned in one direction, N series crates can be readily nested, thus saving space. However, by rotating by 180°, the pieces can then be stacked so that the content remains inside them, thus making for optimal management of goods, handling times and general logistics. These pieces can be provided with closed or perforated sides.

Termobox a caricamento frontale Front-loader Termobox

I Termobox a caricamento frontale sono pratici e pensati per la semplicità d'utilizzo. Uno scomparto per piastre calde o fredde è posto sulla parete posteriore interna per evitare sgocciolamenti di condensa dall'alto e favorire la distribuzione uniforme della temperatura in tutto il contenitore. Sulla parte alta, una comoda impugnatura perimetrale permette la movimentazione comoda e sicura su tutti 4 i lati. L'apertura e chiusura sono facilitate dallo sportello coi bordi smussati mentre le cerniere e la serratura a scatto in nylon permettono allo sportello di aprirsi a 270°.

Front-loader Termobox containers are a solution designed for practicality and user-friendliness. A division is provided for eutectic plates or icing boxes. The division is fitted on the inner back side in order to curb dripping and condensation from above, and in order to enable uniform distribution of the temperature desired within the box as a whole. The top includes a perimeter hand grip for safe, convenient handling on all 4 sides. Opening and closing are facilitated by inclusion of the door with rounded edges. The door can be opened to 270° thanks to the hinges and snap latch in nylon.

Comoda apertura e chiusura grazie ai bordi smussati dello sportello / Easy to open and close thanks to the rounded edges of the door

Design intelligente con comparto interno per piastre calde o fredde, per distribuire la temperatura e impedire sgocciolamenti. / Smart design with inner division for eutectic plates or icing boxes, to distribute the temperature and prevent dripping

Semplice identificazione utilizzando l'apposito spazio per etichette

Simply identifiable using the space provided for labels

Facile movimentazione in sicurezza con comode impugnature perimetrali / Easy to handle in safe conditions, thanks to the perimetral hand grips

Accesso a 270° facilitato dall'ampia apertura dello sportello. Chiusura rinforzata / Opening at 270° access to the products facilitated by the door that can be fully opened. Reinforced closure

Anti-sgocciolamento Il rilievo incorporato sul fronte inferiore evita la fuoriuscita di liquidi. / Anti-drip the upturned lip on the bottom of the front prevents liquids from escaping

Conservazione di cibi caldi /
Storage of hot food

Nota: Si otterranno i migliori risultati caricando le bacinelle a temperature comprese fra 82°C e 88°C. Il caricamento di bacinelle in metallo a temperature superiori ai 120°C può causare danni al contenitore.

Conservazione di cibi freddi /
Storage of cold food

NB: The best results are obtained by loading the trays at a temperature in the 82°C-88°C range. Temperatures higher than 120°C may damage the container.
